

# Horseshoe Divide Has Fine Prospects

The Horseshoe Divide Mining company has several advantages over other companies in having its surface rights covered by a portion of the Divide City townsite which will give the stockholders an additional revenue from the sale of town lots. The ground is well situated 1700 feet north of the Tonopah Divide, comprising 51 acres with two known northwest and southeast veins and no known crossveins pass through the property. Work has been started by an electric equipment equal to any in the district has been ordered and will be erected immediately. In the meantime work will be continued with hand drills. The stock is held largely by friends of the president who are staking their money on

making a mine. The treasury is provided with sufficient funds for a long period of development and will be spent in the ground.

The officers of the Horseshoe are: President, B. Caldwell; president and manager; Zeb Kendall, secretary; Fred A. Burnham, secretary; treasurer; Allen Hines, assistant secretary; Frank Hines, assistant secretary; Frank Hines, assistant secretary. The directors are: E. H. Caldwell, Zeb Kendall, Fred A. Burnham, T. D. Cummins, Frank Hines.

Mr. Caldwell is an experienced and large stockholder in Escondido. Mr. Kendall is president and a large stockholder in Escondido and controlling owner in the Escondido Nevada and Oquirrh mines.

Mr. Burnham is one of the largest stockholders and managers of the Escondido. Mr. Cummins is a large stockholder and banker of the Escondido.

Among other stockholders are: Frank Humphreys of Reno, Frank Hines of Los Angeles and Mr. C. H. Jones of Grass Valley.

The Horseshoe company is a 50 per cent of the net proceeds from the sale of lots. It may be added that the hotel under construction at present time is located near the center of the Horseshoe divide, and the sale of lots will be an important asset.

The stock will be paid out on the San Francisco exchange and the New York curb. Frank Hines, vice president of the Horseshoe, is in charge of the mine.

## MINNESOTA MEN ENLARGE MILL

J. M. Wright, Minneapolis, Minnesota capitalist, was at Minn. recently inspecting the holdings of the Nevada Division and Copper company in which he is interested.

He was accompanied by J. A. Harlan, well known mining engineer. They were making an examination of the mill with a view of increasing the capacity of the mill, adding a modern cyanide plant, and making other improvements. Mr. Wright has already spent \$20,000 in developing the property, which is without doubt one of the promising mines of the Escondido county. Besides their big holdings of copper mines, the company owns a group of gold claims on which they have developed a large body of good grade milling ore. Some of the ore shows a streak of high-grade, but makes it a difficult proposition for Mr. Wright to treat the ore on the ground and save the profit for the stockholders. The company constructed and has in operation a small mill at Kearsage, Siding of the Hazel-Mina branch of the Southern Pacific. It is reported that operations will be started on the property in the near future on an extensive scale.

## BLAKESLEE'S NEW STORE

Five carpenters are busy remodeling the old store made famous by the Blakeslee jewelry store during the early days of the camp on Main street. Mr. Blakeslee is putting in the finest appointments that an artistic taste can suggest and hopes to be ready for an opening about the first of the month, when he will resume business in Tonopah.
